smerdikus@gmail.com

Profile

Bachelor's graduate and current Master's student in Artificial Intelligence at the FIT CTU. Currently working as a Junior Machine Learning Engineer, focusing on time-series forecasting, machine learning models, and data-driven solutions. Conducting research in Quantum Reservoir Computing (QRC), with a focus on quantum machine learning and time-series applications. My interests also include math, algorithms, financial markets and collective sports.

Education

2026 – Present **Master's Degree in Informatics – Artificial Intelligence**, *Faculty of Information Technology, Czech Technical University in Prague*

2023–2026 **Faculty of Information Technology, Czech Technical University in Prague**, *Bachelor's degree – Artificial Intelligence*

2019–2023 **Secondary Technical School Písek**, *Information Technology*
Final graduation exam.

Experience

09/2024 – 06/2025 **Programming Instructor**, *Future Kids s.r.o.*, Part-time
- Prepared and delivered programming courses for children and teenagers.
- Taught programming fundamentals, algorithms, and problem-solving skills.
- Adapted teaching materials to different skill levels.

06/2025 – 12/2025 **Data Analyst**, *Viagem a.s.*, Part-time
- Analyzed and processed data to support business decisions.
- Automated routine tasks and contributed to process optimization.
- Prepared reports and presented analytical findings.

05/2026 – Present **Junior Machine Learning Engineer**, *ČEPS a.s.*, Part-time
- Developed and evaluated machine learning models for energy time-series forecasting.
- Worked with real-world energy data, including preprocessing, feature engineering, and model evaluation.
- Implemented production-oriented forecasting pipelines with daily predictions and scheduled weekly model retraining.

Technical Skills

Programming languages	C, C++, Python, R, SQL, Julia, Pine Script
Tools and technologies	Git, Unix/Linux, basic computer networks
Focus areas	Algorithms, optimization and operations research, machine learning, quantum programming

Achievements and Competitions

Qminers Quant Hackathon	Participation – solving tasks in quantitative analysis / data (depending on the assignment).
Quantum Road to Practitioner	Certificate attached in the appendix at the end of the PDF.

Languages

Czech	Native speaker
Slovak	Fluent
English	Advanced

Interests

Programming, mathematics, technology, water polo, traveling, financial markets (investments and algo trading)

Road to Practitioner Program (R2P)

A curated learning journey from novice to practitioner

CERTIFICATE

OF PARTICIPATION

is awarded to

Petr Šmerda

in recognition of his successful completion of the Capstone Project within the Quantum R2P 2025 online program

IBM **Quantum**
